

# DMR Net Script

**CQ CQ CQ** Preparing to start the Nassau DMR users net

Welcome to the Nassau DMR users net. I'm [**your name & callsign**] and I'll be net control for this evening. This is a casual, social net where we'll try and foster friendship, different operating techniques and a better understanding of DMR. For now, there will be a weekly subject (**announced by email**) to be discussed on the net.

One of the reasons for this net is to get more people talking about things other than their rig and antenna. Running the net is also good operating experience.

If any of you are interested in running this net, please text, email, or call N9HEL and let him know which Thursday you would like to take. It will be entirely your net. Your format, your subject (or none at all). This script will be available to you if you want it.

This week's subject is: [**your net subject**]

I will now announce the early check ins.

We will now take current check ins. Please wait for the beep to do your check in.

Any other check ins?

I will now go through the list and give everyone a chance to tell their story. This is [**your name & callsign**] and I'll be first.

That's the end of the list. Thanks for participating in the Nassau DMR net. If you want to take the net on a particular night, please let me know via text or email. It will be your net, your style, and your subject. So have fun with it.

This is [**Your callsign**], clear
